

Agriacid

Broad-Spectrum Disinfectant

**Kill Germs
with
No Corrosion**

AGRINUSA
PT. AGRINUSA JAYA SANTOSA

Indications

Broad-spectrum disinfectant for routine disinfection or during disease outbreaks caused by bacteria, viruses, fungi, and protozoa

Excellence

- Effectively kills gram-positive and negative bacteria, (including *M. tuberculosis* spores), viruses, fungi, and protozoa
- Effective for disinfection of cages, equipment, milking equipment, hatchery equipment and sterilization of drinking water
- Non-corrosive, less irritant, and stain free

Mode of Action

Povidone iodine can oxidize the cell membranes of microorganisms and interact with proteins contained in cells thus preventing the process of cell division or virus replication.

Composition

Each liter contains :

Povidone iodine 3%

Dosage

- | | |
|-----------------------------------|---------------------|
| • Regular disinfection | 2 mL/liter of water |
| • Disinfection during outbreaks | 4 mL/liter of water |
| • Sterilization of drinking water | 4 mL/liter of water |

Packages

1 liter
5 liter
20 liter
